- 3 Description of potential affects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse affects:
The concession over the easement area marked is to allow for stock access and associated farm management purposes from the western side of the proposed freehold land to the eastern side of the proposed freehold land which is bisected by the Conservation Area. It allows for the safe passage of farm vehicles and stock from one area to the other via the edge of the Conservation Area to avoid the dangers to the leaseholder and general public of using the busy main highway. Access will be confined to the area between the boundary fence adjoining the road and the 4wd electricity pylon track and any effects will be mitigated by the terms of the concession including restrictions on earth disturbance, depositing of materials, lighting of fires and disturbance of waterways.
- 4 Details of the proposed type of concession:
An easement concession under S. 17Q (1) Conservation Act 1987.
- 5 Proposed duration of concession and reason for proposed duration.
Proposed duration: in perpetuity.

The farm management easement concession is essential for safety aspects involved with the location and for the running of the farming operation. The period of the concession will allow surety for the ongoing operation of the farm.

6 Relevant information:

Rugged Ridges Limited has entered into this review voluntarily. The proposed easement concession is essential for ongoing management of the farm and there will be minimal effect on the area which the easement is to cross.
