

We recommend you print these instructions before starting.

Download the UniPrint Client	
Purpose	Install the UniPrint Client
Alert	You must have installed the Citrix Receiver before installing the UniPrint Client. If not, please return to Software downloads to download the Citrix Receiver

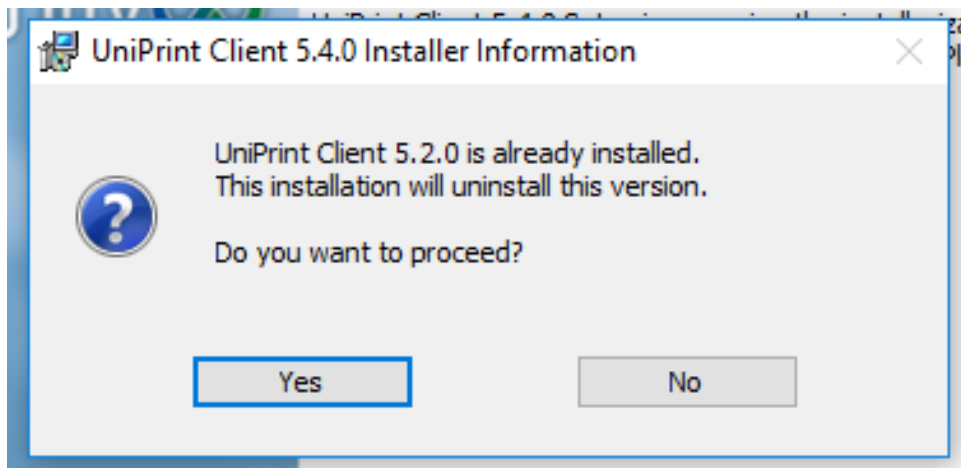

Note: Appearance of screenshots may differ due to display settings.

Installation tasks - this requires you to have Administrator rights	
1	<ul style="list-style-type: none">• Login to your PC with an Account with Local Administrator rights• To disable the User Account Control, navigate to Control Panel/User Accounts and uncheck the box.
Note	Please remember to enable this box again when the installation has finished.
2	<ul style="list-style-type: none">• Download UniPrint Client v5.4 (DLL 2MB) <p>Some users may experience problems with this web installer. As an alternative you can also download directly from the UniPrint website: uniprint.net/en/uniprint-client(link is external)</p>
3	<ul style="list-style-type: none">• A File Download – Security Warning screen will appear• Choose Save this program to disk• Click OK• Choose an appropriate location to save the file to. (Take note of the location and filename)
Note	We recommend using the "Save to disk" option as it means that you will not need to download the installation file a second time if you need to reinstall this software on your computer or another computer in the organisation.
4	Once the file has downloaded, double click on the .exe file.
Alert	You must be logged in with Administrator rights to continue with this installation. Previous versions of UniPrint will be uninstalled as part of this installation
5	<p>UniPrint will begin downloading</p> 

If you have an older version of UniPrint installed, you will be prompted to uninstall

- Click **Yes**

6

- Click **Next** to proceed with UniPrint InstallShield Wizard

7

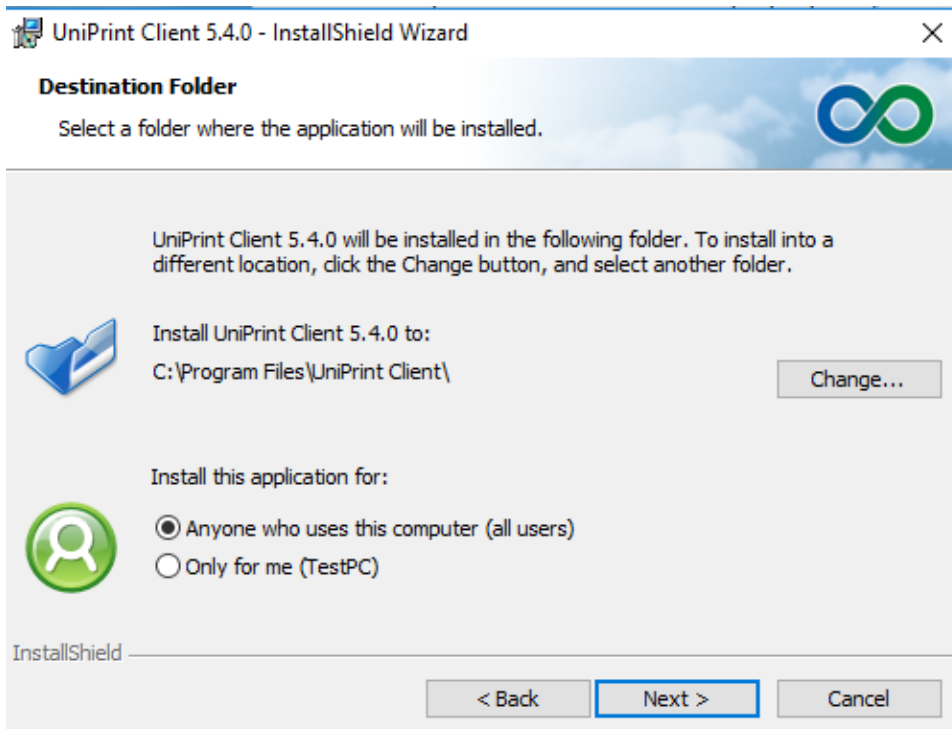

- SELECT **I accept the terms in the license agreement** and CLICK **Next**

8

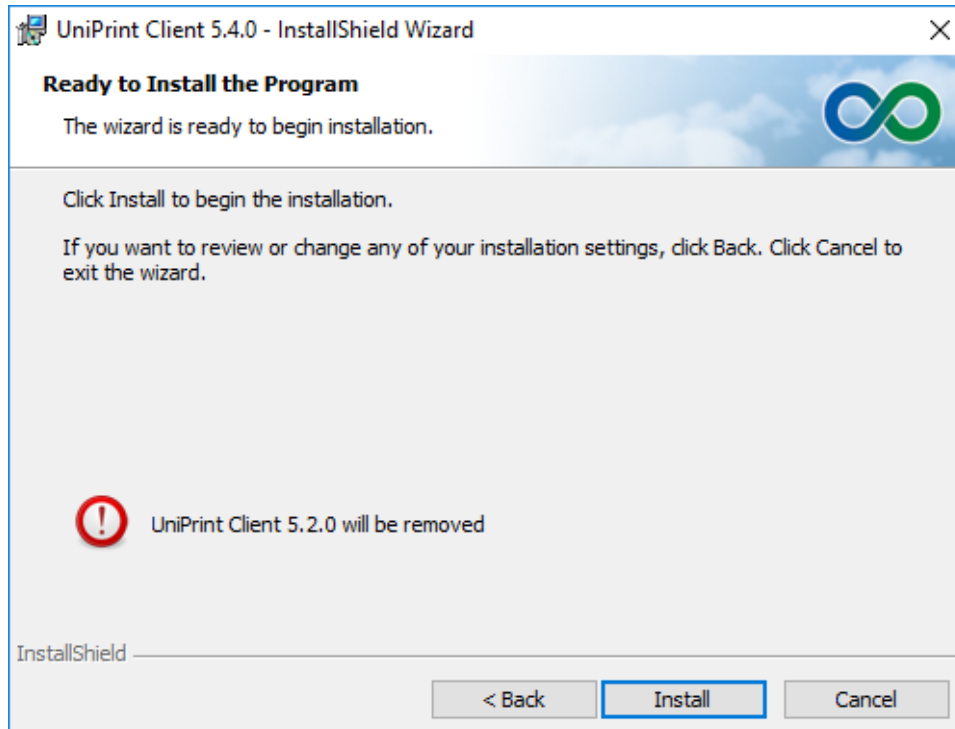

- SELECT **Anyone who uses this computer** and CLICK **Next**

Note: If these options are unable to be changed, cancel the installation and contact your IT provider. Installation requires the User Account Control to be disabled. If you proceed UniPrint will not work.

9

- Click **Install**

11 Wait for the installation to complete

- Click **Finish**
