

Download the Citrix Receiver for Windows	
Purpose	Install the Citrix Receiver Software. This is essential software that enables you to connect to Landonline
Alert	<p>If you are installing Citrix on Citrix or Citrix on Terminal Services, please read: <a href="#">Providing access to Landonline via Virtual Desktop (VDI) environments</a> <a href="#">software installation instructions for Citrix and Terminal Services environments</a></p> <p>If you reinstall the Citrix software you will need to reinstall the Digisign2 software for signing to work, this includes automatic updates.</p> <p>The Windows App Store version of Citrix Receiver is not recommended or supported. Digital Signing will not work with the App Store version.</p>
Step	Description
1	<p><b>Citrix Receiver has been replaced by Citrix Workspace</b></p> <p>We recommends Citrix Long Term Service Release LTSR 1912 <a href="#">Download Citrix LTSR(link is external)(link is external)</a></p> <p>Or alternatively the latest Citrix Workspace <a href="#">Download Citrix Workspace(link is external)(link is external)</a></p> <p>For users on older systems incompatible with Citrix Workspace we suggest Citrix Receiver 4.9 LTSR <a href="#">Download Citrix Receiver 4.9 LTSR(link is external)(link is external)</a></p>

2

- Once open, click the blue “Download Receiver for Windows” button to download Citrix Receiver for Windows.
- If prompted to Run or Save, you may choose either option, although usual practice is to Save the file locally and then Run it from the saved location.
- Note: New versions numbers will update over time.
