How to resolve Predefined Message

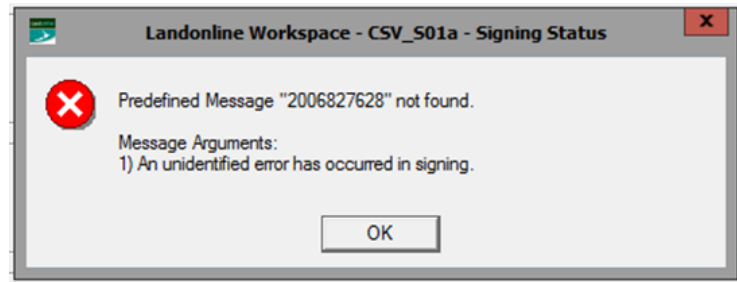

1) If you have Landonline open, please close out of it before proceeding further.

   Download the DigiSign 3.1 installer by clicking this link here OR
   Alternatively access the link through our website.
   LINZ - DigiSign 3.1

2) Once you've downloaded the software, it will appear in your web browser's download directory (The default Windows location is in a Downloads folder).

3) Dependent on your web browser you should be able to run it from your download bar but if you do not see this, browse to your Downloads, and launch it from there. Filename is **digisign3.1.exe**

4) You'll be presented with the options to the right. Please select "**Repair**"	Digisign 3.1 Modify, Repair or Remove installation Modify Repair Remove
5) On the next screen click "**Repair**"	Digisign Begin repair of Digisign Click "Repair" to repair the installation of Digisign. If you want to review or change any of your installation settings, click "Back". Back Repair
6) You'll receive confirmation the repair is complete. You can now relaunch Landonline and try signing.	Digisign 3.1 Digisign has been successfully configured. Finish
