2 Conditions

- 2.1 This Proposal, and any agreement arising therefrom, is subject to the conditions contained in Schedule Four (if any).

3 Settlement

- 3.1 Unless otherwise agreed by the parties, the Settlement Date for the disposal of the Freehold Land to the Holder by freehold disposal will be the day that is TEN (10) working days following the day on which Land Information New Zealand notifies the Commissioner that the Final Plan and a copy of this Proposal are registered in accordance with the Act.
- 3.2 The Freehold Land will be disposed of to the Holder under the Land Act 1948.

4 Holder's Payment

- 4.1 By 3.00 p.m. on the Settlement Date, the Holder must pay the Holder's Payment and all other money payable to the Commissioner or the duly appointed agent of the Commissioner by bank cheque without set-off or deduction of any kind in accordance with the settlement requirements of the Commissioner.
- 4.2 If the Holder fails to pay the Holder's Payment or any part of it or any other money to the Commissioner or to the duly appointed agent of the Commissioner on the Settlement Date clause 19 will apply.

5 Commissioner's Payment

- 5.1 The Commissioner shall pay the Commissioner's Payment to the Holder on the Settlement Date.
- 5.2 No interest shall be payable to the Holder by the Commissioner in respect of the Commissioner's Payment, including (without limitation) for the period from the Vesting Date to the Settlement Date.

6 Vesting of Crown Land

- 6.1 The Crown Land will vest in the Crown on the Vesting Date.

7 Issue of Certificate of Title

Any new

mortgage will be registered after any other encumbrances such as any easements and/or covenants are registered.

- 9.5 If required by the Mortgagee, the Commissioner will provide an undertaking that, subject to the provisions of clause 7 being satisfied, the Commissioner will register the discharge of the Mortgage and register any new mortgage against the certificate of title for Freehold Land at the same time as the certificate of title for the Freehold Land issues.

10 Continuation of Lease

- 10.1 The Lease will remain in full force and effect until a certificate of title issues for the Freehold Land. Notwithstanding when Settlement Date occurs, until a certificate of title issues for the Freehold Land the Holder will duly and punctually comply with all obligations on its part under the Lease (other than as set out at clause 12.1 (b)) and the Lease will remain in full force and effect.
- 10.2 From the date that a certificate of title is issued for the Freehold Land the Lease is deemed to be surrendered and, subject to clause 10.3, the Commissioner releases and discharges the Holder from the performance and observance of all covenants, conditions and obligations under the Lease.
- 10.3 The release and discharge in clause 10.2 is without prejudice to:
- (a) the rights, remedies and powers of the Commissioner contained in the Lease (except as varied in accordance with clause 12.1(b)); and
 - (b) will not release or discharge the Holder from any liability under the Lease, arising prior to the date that the certificate of title for the Freehold Land is issued, under any statute or by any reason where such liability is due to the fault of the Holder.
- 10.4 As from the Vesting Date, the Holder will not have any estate, right or claim against any of the land, improvements, fencing, buildings, structures, fixtures, fittings or chattels on the Crown Land (subject to the provisions of any permit, easement, concession, other encumbrance or document provided under this Proposal). The Holder will not be entitled to any compensation for any of its improvements, fencing, buildings, structures, fixtures, fittings or chattels which are on the Crown Land as at the Vesting Date.

11 Fencing and Construction

- 11.1 If the Holder has accepted this Proposal and that acceptance has taken effect pursuant to the Act, the Commissioner will, at its cost, erect new fencing approximately along the line marked as such on the Plan and dismantle the existing deer fence C-E.
- 11.2 The Commissioner will erect the fencing referred to in clause 11.1 according to the specifications in Appendix 3. The ongoing maintenance of the fencing referred to in clause 11.1 will be under the terms of the Fencing Act 1978.
- 11.3 If the Commissioner has not completed any fencing as set out in Appendix 3 by the Settlement Date, the Holder agrees that the Commissioner may register a covenant, on terms entirely satisfactory to the Commissioner (in the Commissioner's sole discretion), over the Freehold Land to enable the Commissioner to complete such fencing. The Holder will do all things necessary (including signing any document) to enable the Commissioner to register such a covenant.
- 11.4 If the Holder has accepted this Proposal and that acceptance has taken effect pursuant to the Act, the parties will undertake the construction works set out in Appendix 3 on the terms and conditions set out in Appendix 3.

12 Apportionments

- 12.1 Rent payable under the Lease in respect of the Freehold Land shall be apportioned as follows:
- (a) Rent paid or payable will be apportioned on the Settlement Date as at the Settlement Date and either deducted from or added to (as the case may be) the amount required to settle.
 - (b) Notwithstanding that the Lease continues in effect until a certificate of title issues for the Freehold Land, the Holder shall not be required to pay any rent under the Lease for the Freehold Land from the Settlement Date.
- 12.2 Rent paid or payable under the Lease for the Crown Land will be apportioned on the Settlement Date as at the Vesting Date and either deducted from or added to (as the case may be) the amount required to settle.
- 12.3 All rates, levies, and all other incomings and outgoings and other charges receivable from or charged upon the Freehold Land will, unless otherwise agreed by the parties, be apportioned on the Settlement Date as at the Settlement Date.
- 12.4 All rates, levies and all other incomings and outgoings and other charges receivable from or charged upon the Crown Land will be apportioned on the Settlement Date as at the Vesting Date and either deducted from or added to (as the case may be) the amount required to settle.
- 12.5 Following the date that a certificate of title issues for the Freehold Land, the Commissioner will undertake a final apportionment and either the Commissioner will pay to the Holder, or the Holder will pay to the Commissioner, any additional amounts due because of any payments made or received by one party on behalf of the other for the period from the Settlement Date to the date on which a new certificate of title issues for the Freehold Land.

13 Risk

- 13.1 On and with effect from the Unconditional Date all risk of any nature in respect of the Freehold Land will pass from the Commissioner to the Holder. For the avoidance of doubt, the Holder's current risk in respect of matters arising under the Lease, including, without limitation, the Holder's risk in respect of all improvements, buildings, fencing, fixtures, fittings and chattels, will continue to remain with the Holder until the Lease is deemed to be surrendered under clause 10.2.
- 13.2 The Holder will be required to comply with its settlement obligations under this Proposal irrespective of any damage to, or destruction of, the Freehold Land prior to the Settlement Date.

14 Survey

- 14.1 All areas of the Land forming part of this Proposal and delineated on the Plan are approximate and subject to preparation of the Final Plan. The measurements of the areas may therefore alter on the Final Plan.
- 14.2 No error, misdescription or amendment of any part of the Land will annul, vary, or derogate from this Proposal, or the Holder's acceptance of this Proposal.
- 14.3 For the avoidance of doubt, the Holder will not be entitled to cancel or withdraw its acceptance of this Proposal, nor will the Holder, or any successor in title of the Holder or any party with an interest in the Land, be entitled to payment of any compensation, should any area of the Land on the Final Plan have a different measurement to the area specified in this Proposal.
- 14.4 The Commissioner does not warrant that any existing fence is erected on, or that any new fence to be erected will be on, any boundaries of the Land or any part of the Land as outlined on the Plan or the Final Plan.

15 Holder's Acknowledgments

- 15.1 If the Holder accepts this Proposal and that acceptance takes effect under the Act, the Holder acknowledges that:

- (a) interest, at the Default Rate, on the amount of the unpaid GST and which will accrue from the Commissioner's GST Date until the date of payment of the unpaid GST; and

21 Lowest price

- 21.1 The Holder's Consideration does not include any capitalised interest and the parties agree that the "lowest price" for the purposes of valuing the Freehold Land under section EH 48(3)(a) of the Income Tax Act 1994 is equal to the Holder's Consideration.

Schedule One: Provisions relating to the Schedule One Land

1 Details of Designation

- 1.1 Under this Proposal the land shown outlined in pink on the Plan and marked CA1, being 720 hectares (approximately) is designated as land to be restored to or retained in full Crown ownership and control as conservation area and:
- 1.2 Under this Proposal the land shown outlined in pink on the Plan and marked R1, R2 and R3, being 9 hectares (approximately) is designated as land to be restored to or retained in full Crown ownership and control as recreation reserve.

Schedule Two: Provisions relating to the Schedule Two Land

1 Details of designation

- 1.1 Under this Proposal the land shown outlined and hatched in pink on the Plan and marked CA2 CA3 and CA4, being 890 hectares (approximately) is designated as land to be restored to or retained in Crown control as conservation area subject to:
- (a) the granting of the concession over the area marked CA2 on the plan substantially as set out in Appendix 4.
 - (b) the granting of the concession over the area marked CA3 on the plan substantially as set out in Appendix 5.
 - (c) the continuation in force of the easement 6547571.1 over the area marked CA4 on the plan.

2 Information Concerning Proposed sheep grazing Concession – for Area CA2

- 2.1 The proposed terms and conditions of Grazing Concession for Area CA2 are specified in the document attached as Appendix 4.
- 2.1 The proposed activity of Grazing Concession for Area CA2 is to provide limited grazing of ewe sheep which shall not include merino sheep. Farm dogs are also permitted on the land. The concession is not exclusive and does not diminish the right of public access to the land and does not limit the Department of Conservation's ability to issue hunting permits over the land.
- 2.2 Area CA2 comprises high altitude country. The lower portion of the area where the majority of stock drift will occur is predominately vegetated in narrow leaved snow tussock. Alpine areas support short blue tussock grasslands, alpine herbfields and cushion fields. No practical fenceline can be found between lands suitable for freeholding and lands of high inherent value. If a fence were to be built it would require high levels of regular and expensive maintenance. The Grazing Concession for Area CA2 is being granted in recognition that some stock drift will inevitably occur above the unfenced boundary line and that without some formal recognition of this, the issue could cause some future complications between the Department of Conservation and the adjoining landowner.
- The proposed status of Area CA2 is a conservation area for the purpose of protection of natural and historic resources to be managed by the Department of Conservation.
- 2.3 The Grazing Concession for Area CA2 is for ewe sheep grazing only excluding merino sheep. Ewes unlike wethers tend to graze at lower altitude on better quality pasture. The impact of ewes on this type of country is much less marked than other classes of stock such as cattle, deer or goats. To comply with the terms of the Grazing Concession the Holder will have to farm other stock types behind fenced boundaries which do not border onto Area CA2. Provided that the stock limit and other environmental conditions are adhered to few adverse effects on natural values are anticipated. Over time it is expected that in light of a low stocking rate and the cessation of burning the native vegetation cover will increase and consequently Area CA2 will become less appealing to stock pastured below the conservation/freehold boundary.
- The Grazing Concession for Area CA2 document contains clauses relating to environmental protection covering removal of natural features, introduction of plants or animals (excluding farm sheep, farm dogs and horses), littering, noisome or dangerous activities, top-dressing, disturbing water courses and fire. In addition, the Holder is prohibited from actively encouraging ewes into Area CA2 (for example through the use of salt blocks).
- 2.4 Grazing Concession for Area CA2 is granted under Section 17Q of the Conservation Act.

- 2.6 Grazing Concession for Area CA2 is for a term of 30 years. The 30 years term is in recognition that it is not practical to fence Area CA2 from the proposed freehold land. This situation will not change in the foreseeable future with existing technology and while the Holder is farming livestock.
- 2.7 Two of the proposed grantees have lived on and managed Cattle Flat Station for many years and have a good working relationship with the Department of Conservation. Cattle Flat Station bounds onto the conservation estate (Treble Cone Ski Area and the Treble Cone Road). The proposed grantees have dealt with the Department of Conservation over a range of issues including wild animal control and ski field matters in an amicable and business like manner.

3 Information Concerning Proposed sheep grazing Concession – for Area CA3

- 3.1 The proposed terms and conditions of Grazing Concession for Area CA3 are specified in the document attached as Appendix 5.
- 3.2 The proposed activity of Grazing Concession for Area CA3 is to provide for the grazing of ewe sheep over a 30 year period which shall not include merino sheep. The number of ewes is to decrease over time as follows.
- (a) for each of the first five years of the term 266 ewes on an annual basis may be run between 1 January and 1 May. This equates to 809 ewes between 1 January and 1 May. The Holder may elect to run a greater number for a shorter duration.
 - (b) for each of years 6 to 10 of the term, 200 ewes on an annual basis may be run between 1 January and 1 May. This equates to 608 ewes between 1 January and 1 May. The Holder may elect to run a greater number for a shorter duration.
 - (c) from year 11 until the termination of this Grazing Concession Two, 133 ewes on an annual basis may be run between 1 January and 1 May. This equates to 404 ewes between 20 January and 15 April. The Holder may elect to run a greater number for a shorter duration.

Grazing Concession for Area CA3 permits the use of dogs on the land.

Grazing Concession for Area CA3 is not exclusive and does not diminish the right of public access to the land except that the Department of Conservation will not issue hunting permits over Area D between 1 January and 1 May in any year.

- 3.3 Area CA3 comprises approximately 140 hectares of moderate to high altitude country. The lower portion of the area is predominately vegetated in a brown top/sweet vernal sward which grades into narrow level leaved snow tussock and an inter tussock cover of predominately native herbs and grasses with increasing altitude.

Grazing Concession for Area CA3 document recognises that some stock drift will occur out of the unfenced upper boundary although the document stipulates that the Holder will in no way encourage this to occur.

The proposed status for Area CA3 is a conservation area for the purpose of protection of natural and historic resources to be managed by the Department of Conservation.

- 3.4 The granting of Grazing Concession for Area CA3 is in recognition that no practical fence line exists between the land suitable for freeholding and land of high inherent value. Whilst the lower part of Area CA3 is quite modified, the upper portion contains a strong cover of snow tussock which in the absence of burning will increase in cover to the extent that the area will become unattractive to stock.

Also of relevance is that the sheep flock has been dramatically reduced on Cattle Flat Station in the years prior to the tenure review and that the grazing pressure on high altitude areas has reduced substantially.

Provided that the stock limit and other environmental conditions are adhered to few adverse effects on natural values are anticipated. Over time it is expected that an increasing proportion of grazing will occur within the lower more modified part of the Area CA3 and that snow tussock cover will increase at higher altitudes.

- 3.5 The Grazing Concession for Area CA3 is granted under Section 17Q of the Conservation Act.
- 3.6 Grazing Concession for Area CA3 is for a term of 30 years with a reducing stocking rate. The term is in recognition that the lower part of Area CA3 is relatively modified and contains a range of introduced grasses and herbs which will sustain sheep grazing with limited impact on inherent values. The reducing stock rate will facilitate and increase stature and density of native snow tussock in the upper part of Area CA3.
- 3.7 Two of the proposed grantees have lived on and managed Cattle Flat Station for many years and have a good working relationship with the Department of Conservation. Cattle Flat Station bounds onto the conservation estate (Treble Cone Ski Area and the Treble Cone Road). The proposed grantees have dealt with the Department of Conservation over a range of issues including wild animal control and ski field matters in an amicable and business like manner.

Special Conditions

Land Management

1. The Concessionaire must not break up or crop any part of the Land without the prior written consent of the Grantor.
2. Ewes
 - 2.1 The Concessionaire must not actively encourage ewes to enter on to the Land by any means, including but not limited to, by mustering or the use of salt blocks.
 - 2.2 While the Grantor acknowledges that despite the best efforts of the Concessionaire, some 'ewe drift' will occur into the Land, the Concessionaire is to take all practical steps to discourage ewes from doing so and must monitor the Land on a regular basis in order to ensure compliance as far as possible.
 - 2.3 If the Grantor determines that the Concessionaire is taking no steps to monitor and control 'ewe drift' and the Grantor is made aware that ewes are grazing on the Land, the Grantor may terminate this concession unless effective measures to control 'ewe drift' onto the Land are agreed between the Grantor and Concessionaire.
3. The Concessionaire may use a helicopter on the Land for purposes consistent with this Concession Activity.

Fencing

4. The Grantor is not to be called upon at any time to contribute to the costs of work on a fence as that term is defined in the Fencing Act 1978 between the Land and any adjoining land of the Grantor.
5. The Concessionaire must keep and maintain at the Concessionaires cost any fences, stiles or gates in good repair.

Hunting

6. The Grantor reserves the right to authorise hunters who hold a valid hunting permit issued by the Department of Conservation to hunt on the Land.

Inspection

7. The Grantor reserves the right for the Grantor's employees or agents to enter on the Land at any time for the purpose of inspecting the Land.

Management Prescription

8. The parties will comply with the management prescription document attached as schedule 3.

Other Matters

9. The words "and arising from the grant of this Concession" are added to clause 10.2(a)(i).
10. The Concessionaire may terminate this Concession by giving at least three months notice in writing to the Grantor.
11. The last sentence of clause 20(i)(c) is varied by adding the following:

provided that upon receiving an application for such a concession which stands to impact on the Concessionaire's use of adjoining freehold land the Grantor will forthwith consult with the Concessionaire and have regard to his views in deciding whether to grant a concession. In reaching a decision the Grantor will not act unreasonably. The Concessionaire accepts that on occasions the Grantor may have no time to do anything other than simply notify the Concessionaire of the Concession.
