2 Conditions

- 2.1 This Proposal, and any agreement arising therefrom, is subject to the conditions contained in Schedule Four (if any).

3 Settlement

- 3.1 Unless otherwise agreed by the parties, and provided the Holder is not in breach of any of its obligations under the Lease, the Act or the Land Act 1948, the Settlement Date for the disposal of the Freehold Land to the Holder by freehold disposal will be the day that is TEN (10) working days following the day on which Land Information New Zealand notifies the Commissioner that the Final Plan and a copy of this Proposal are registered in accordance with the Act.

- 3.2 The Freehold Land will be disposed of to the Holder under the Land Act 1948.

- 3.3 Notwithstanding anything to the contrary, if, as at the Settlement Date (as determined pursuant to clause 3.1), the rent payable under the Lease is subject to a Rent Review, then the Commissioner may elect to:

(a) settle on the Settlement Date on the basis that the Commissioner may retain from the Commissioner's Payment an amount which the Commissioner, acting reasonably, estimates will be payable by the Holder to the Commissioner following agreement or determination of the Rent Review ("the Retention"). The Retention shall be held by the Crown Law Office in an on-call, interest-bearing trust account in the joint names of the parties for their respective rights and interests. Upon agreement or determination of the Rent Review, the Commissioner shall calculate the rent shortfall payable by the Holder to the Commissioner in respect of the period from the effective date of the Rent Review to the Settlement Date, both dates inclusive ("the Shortfall").

If:

(i) the Shortfall is less than the Retention and the net interest earned thereon, the balance shall be paid by the Commissioner to the Holder within TEN (10) working days; or

(ii) the Shortfall is more than the Retention and the net interest earned thereon, the balance shall be paid by the Holder to the Commissioner within TEN (10) working days.

or

(b) defer the Settlement Date until TEN (10) working days after the rent payable as a consequence of the Rent Review:

(a) has been agreed or determined; and

(b) is not and will not be subject to any appeal, rehearing or other proceedings.

4 Holder's Payment

- 4.1 By 3.00 p.m. on the Settlement Date, the Holder must pay the Holder's Payment and all other money payable to the Commissioner or the duly appointed agent of the Commissioner by bank cheque without set-off or deduction of any kind in accordance with the settlement requirements of the Commissioner.

- 4.2 If the Holder fails to pay the Holder's Payment or any part of it or any other money to the Commissioner or to the duly appointed agent of the Commissioner on the Settlement Date clause 19 will apply.

5 Commissioner's Payment

- 5.1 The Commissioner shall pay the Commissioner's Payment to the Holder on the Settlement Date.
- 5.2 No interest shall be payable to the Holder by the Commissioner in respect of the Commissioner's Payment, including (without limitation) for the period from the Vesting Date to the Settlement Date.

6 Vesting of Crown Land

- 6.1 The Crown Land will vest in the Crown on the Vesting Date.

7 Issue of Certificate of Title

- 7.1 Notwithstanding any other provision in this Proposal, the Commissioner will not request that the Surveyor-General issue a certificate to the Registrar pursuant to section 116 of the Land Act 1948 (to enable a certificate of title to issue for the Freehold Land) unless and until:
- (a) the Commissioner has received the Holder's Payment from the Holder under clause 4, and all other money payable by the Holder under this Proposal and the Notice;
 - (b) the Holder has provided to the Commissioner duplicate copies of the certificate of title relating to the Lease (if any) and/or the Lease if requested by the Commissioner;
 - (c) the Holder has signed and returned to the Commissioner all documents required by the Commissioner to be signed by the Holder to give effect to this Proposal (including, without limitation, any permit, covenant, easement and/or any other document); and
 - (d) the Holder has procured a registrable discharge of any Mortgage and provided this to the Commissioner together with any new mortgage documents to be registered against the Freehold Land.

8 Registration of Documents

- 8.1 Subject to clause 7, the Commissioner will lodge all documents necessary to give effect to this Proposal (including, without limitation any easement, covenant, discharge of mortgage, and/or duplicate copy of the Lease) and any new mortgage documents to be registered against the certificate of title to be issued for the Freehold Land so that the certificate of title for the Freehold Land will issue subject to the encumbrances provided in this Proposal. Any new mortgage will be registered after any other encumbrances such as any easements and/or covenants are registered.

9 Consents

- 9.1 The Holder must obtain the written consent to the Holder's acceptance of this Proposal from all persons having an interest in the Land (other than the Holder), including, but not limited to:
- (a) any Mortgagee(s);
 - (b) any party entitled to the benefit of a land improvement agreement registered against the Lease and/or the Land; and
 - (c) any other person that the Commissioner reasonably believes has an interest in the Land or who the Holder reasonably believes has an interest in the Land, whether registered or not.

- 9.5 If required by the Mortgagee, the Commissioner will provide an undertaking that, subject to the provisions of clause 7 being satisfied, the Commissioner will register the discharge of the Mortgage and register any new mortgage against the certificate of title for Freehold Land at the same time as the certificate of title for the Freehold Land issues.

10 Continuation of Lease

- 10.3 The release and discharge in clause 10.2:
 - (a) Is without prejudice to the rights, remedies and powers of the Commissioner contained in the Lease (except as varied in accordance with clause 12.1(b)); and
 - (b) will not release or discharge the Holder from any liability under the Lease, arising prior to the date that the certificate of title for the Freehold Land is issued, under any statute or by any reason where such liability is due to the fault of the Holder.
- 10.4 As from the Vesting Date, the Holder will not have any estate, right or claim against any of the land, improvements, fencing, buildings, structures, fixtures, fittings or chattels on the Crown Land (subject to the provisions of any permit, easement, concession, other encumbrance or document provided under this Proposal). The Holder will do all things necessary (including signing any document) to enable the Commissioner to register such a covenant.
- 11.4 The ongoing maintenance of the Fencing referred to in clauses 11.1 and 11.2 will be subject to the terms of the Fencing Act 1978.

2.1 Easement Concession – water supply

1. Description of proposed activity(s) s.39(a): The proposed activity is an easement to provide for an irrigation intake and underground pipeline together with the maintenance of the intake and pipeline.
2. Description of place(s) where proposed activity to be carried out and proposed status s.39(b): The easement area comprises a route shown as blue dashed lines through CA1 and CA2 on the tenure review Designations Plan.
3. Description of potential effects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse effect, s.39(c) noting the requirements of s.51(3)(a) and s.51(2)(d) CPLA: The pipeline will be installed under the ground with a small digger. Almost all of the activity will be on an existing track with minimal impact. Some minor scrub clearance may be needed at the top end, but any disturbance will be mitigated by the requirements to limit the width of disturbance to 2m. This clearance will not impact adversely in the context of where it occurs and the common plant species involved.
4. Details of the proposed type of concession: Easement under section 17Q Conservation Act 1987.
5. Proposed duration of concession and reasons for proposed duration s.39(e):
Proposed duration: The concession is proposed for 30 years.

Reasons for proposed duration: This is the longest time the Grantor could reasonably provide. It is expected that the concession would be required in the long term, so renewal for a further period would be expected.

6. Relevant information about the proposed grantee including information relevant to the grantee's ability to carry out the proposed activity s.39(f):

Proposed grantee: Cloudy Peak Limited.

Relevant information: The grantee is currently engaged in farming on the property and is well aware of the environmental considerations for the pipeline.

2.2 Grazing Concession

1. Description of proposed activity(s) s.39(a): The proposed concession provides for grazing over the higher areas of Cloudy Peak proposed as conservation land.

2. Description of place(s) where proposed activity to be carried out and proposed status s.39(b): The area is about 1600ha and described as CA1 on Designations Plan.

3. Description of potential effects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse effect, s.39(c) noting the requirements of s.51(3)(a) and s.51(2)(d) CPLA:

The numbers of stock and grazing period has been limited. The stocking rate is well below that traditionally grazed in this area. The concession is set up so that it costs more for every sheep grazed, thus creating a disincentive to use the area. The Grantor does not anticipate any adverse consequences from the short period of the concession.

4. Details of the proposed type of concession: Easement under section 17Q(1) Conservation Act 1987.

5. Proposed duration of concession and reasons for proposed duration s.39(e):

Proposed duration: The grazing will be provided for 5 years from the signing of the substantive proposal. In effect, the period of the concession will be from the time the land is conservation land until the 5 year timeframe expires.

Reasons for proposed duration: The concession is provided as a phase out period so the holder can adjust its farming business to the loss of grazing. Five years from the loss of this grazing (that is from the signing of the SP) is considered adequate for this adjustment.

6. Relevant information about the proposed grantee including information relevant to the grantee's ability to carry out the proposed activity s.39(f):

Proposed Grantee: Cloudy Peak Limited

Relevant information: The Grantee is currently engaged in farming on the land.

2.3 Easement Concession - Access

1. Description of proposed activity(s) s.39(a): The proposed activity is an easement access over an existing track to provide for vehicle, horse, foot, driven stock and dog access.

2. Description of place(s) where proposed activity to be carried out and proposed status s.39(b): The easement area comprises an existing formed track shown as green dashed lines within CA1 on the tenure review Designations Plan.

3. Description of potential effects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse effect, s.39(c) noting the requirements of s.51(3)(a) and s.51(2)(d) CPLA:
The track has been used for many years, with no significant adverse effects. The requirement for stock to be driven rather than left to their own devices should minimize the possibility of them being left in the areas. In addition the Grantee is to maintain the track By surface grading only.
4. Details of the proposed type of concession: Easement under section 17Q Conservation Act 1987.
5. Proposed duration of concession and reasons for proposed duration s.39(e):
Proposed duration: The concession is proposed for 30 years.
Reasons for proposed duration: It is expected that the concession would be required in the long term, so a renewal for a further period would be expected.
6. Relevant information about the proposed Grantee including information relevant to the grantee's ability to carry out the proposed activity s.39(f):
Proposed Grantee: Cloudy Peak Limited
Relevant information: The Grantee is currently engaged in farming and is currently using the tracks.

- 7.2 If for any reason this Covenant remains unregistered and the Owner fails to obtain the agreement of a purchaser, lessee, or assignee to comply with the terms of this Covenant, the Owner will continue to be liable in damages to the Minister for any breach of the Covenant committed after the Owner has parted with all interest in the Land in respect of which a breach occurs.

3. Values of Land to be Preserved

Vegetation Values:

The upper reaches of Wainui Creek has steep sides with many rock outcrops. These support relatively dense, tall (3-4 m) shrubland of *Olearia odorata*, matagouri, and mingimingi, and relatively little briar. *Muehlenbeckia* and bush lawyer (*Rubus schmidelioides*) are frequent on the shrub canopy. Bush lawyer is also frequent on outcrops where bracken (*Pteridium esculentum*) is also common. Vegetation under the shrub canopy is more varied than in shrublands of more open slopes, and includes prickly shield fern (*Polystichum vestitum*) as well as pasture grasses and many herbaceous weeds. Where the vegetation is only lightly grazed by herbivorous mammals, mostly in the humid environment at streambanks in the gully floors, a relatively diverse flora of mainly exotic herbaceous species exists.

Fish Values:

Galaxias sp D is found within Wainui Creek and is ranked Nationally Vulnerable (Hitchmough, 2002). This species occurs in four population clusters in the Clutha River catchment and in areas of the Catlins District. Genetic data indicates that the different clusters, while all part of the *Galaxias* sp D group, are distinct. It is recommended that these clusters be treated as distinct until further information is available.

Galaxias sp D is subject to a recovery plan which requires protection of 30 populations/streams of even geographic distribution. As there are not yet 30 known populations, each new population identified has significance for protection. The Wainui Creek population is the southern most population of *Galaxias* sp D on the Dunstan Range. Geographically, this Wainui Creek population provides an important link between the populations in the Chain Hills and a single population at Bannockburn.

 - 2.1 the Minister will bear the cost of work essential for purposes of nature conservation;
 - 2.2 the Owner will bear the cost of work essential for farming purposes;
 - 2.3 when the expenditure is partly for nature conservation and partly for farming purposes, the parties will bear the costs equally or in such other proportion as they may agree, and failing agreement, as may be determined under clause 11.
