### **Ecological Sustainability Advice from SCION - Plan**

As part of the process of Tenure Review, advice is sought on a case by case basis on how to promote the Management of the reviewable land in a way that is ecologically sustainable. This report is the result of outdoor survey and inspection. It is a key piece of information for the development of a preliminary consultation document

Note: Plans which form part of the Ecological Sustainability advice from SCION are published separately.

These documents are all released under the Official information Act 1982.
