Submission Tenure Review Mt Nimrod

The horse and non motorized vehicle access easement starting from the Mt Nimrod Reserve is impossible for both horse and rider.

Access could be up the original Bridle Track to Mt Nissing, starting from the Nimrod Road and going up through Run Block 305, or the easement over the original existing farm track off Back Line Road. This is the track that links vehicle access to the proposed Conservation Management Area and would give horse access to the top of Mt Nimrod.

Submission Tenure Review Mt Nimrod

The horse and non motorized vehicle access easement starting from the accessed track within the reserve is impossible for horses and dangerous for both horse and rider.

Access could be up the original bridle track to Mt Nessing starting off the Nimrod road and going up through Run block 305, or the easement over existing farm track that originated on Back Line Road. This is the track that links vehicle access to the proposed conversation management area. This giving horse access to Kaumira hunting block or the top of Nimrod.
