RECOMMENDATIONS

1. That the Commissioner of Crown Lands or his delegate note this Due Diligence Report which has been prepared in accordance with the Pre Tenure Review Assessment Standard;
2. That the Commissioner of Crown Lands or his delegate note that there are no incomplete actions as the result of the file search.

 - a) The siting of a Radio Repeater at Oxford Hill, approved by the then Commissioner of Crown Lands on 6 June 1972 at the request of the North Canterbury Power Board (now Mainpower) was subsequently, according to Mainpower, erected but later resited at Mt Thomas.

3 Registered/Unregistered Property Interests

**RELEASED UNDER THE
OFFICIAL INFORMATION ACT**

3.1 Registered Interests

Legal advice has confirmed that the registered interests over the lands were extinguished on forfeiture of the Pastoral lease and Licence to Graze.

It should be noted that Variation of Lease 852649.1 had, with the agreement of the former lessee, provided for the retirement of 694 hectares of the now forfeited Pastoral lease area.

A copy of this Variation and the Caveat that protected the Crown's interests in the unregistered Land Improvement Agreement are attached as *Appendix 2*.

3.2 Unregistered Interests

Grant of temporary rights of access to Wilder Transport Limited over track on Run 225 to adjoining freehold land as consented to by the Commissioner of Crown lands on 26 October 1998 subject to conditions, including reciprocal access across freehold land to the Run boundary.

Refer also to Clause 8.1.

4 Summarise any Government programmes approved for the lease:

Prior to forfeiture of the Pastoral lease Caveat A182156.1 was registered against it to protect the Crown's interests in an unregistered Land Improvement Agreement dated 1 April 1987. This was extinguished on registration of the forfeiture notice (A385469.1 registered 14 January 1999).

The property is not part of a Rabbit and Land Management programme.

5 Summary of Land Status Reports:

The Land Status Reports by D. McGregor, McGregor Property Services Limited, for and on behalf of Q.V. Valuations on 8 August 2002, confirmed the status as Crown land under the Land Act 1948.

Report 1 of 2 is relative to the forfeited Pastoral lease area (Run 225 and RS 36848) and Report 2 of 2 is relative to the forfeited Licence to Graze (RS 42115).

Both areas are subject to Part 9 of the Ngai Tahu Claims Settlement Act 1998 and Part IV A of the Conservation Act 1987, upon disposition.

The minerals remain with the Crown because the land has never been alienated since the original acquisition for settlement purposes from the original Maori owners under the 1848 Kemp and 1857 North Canterbury Deeds of Purchase.

Report 1 of 2 noted that the renewal of the forfeited Pastoral lease in 1994 (A 153592.1 of 15 January 1995) did not record the effect of the Marginal strips created by SO 19023. This was at the insistence of the lessees.

A copy of the Land Status Report is attached as Schedule A.

6 Review of Topographical and Cadastral Data:

Both maps attached to the Land Status Report show that there are no historic sites, airstrips, transmission or local power lines, water races, dams, huts, telecommunication or other such installations on the lease.

6.1 Marginal Strips:

The cancelled Pastoral lease contained a notation subject to Section 58 of the Land Act 1948 as did SO's 10866 applying in respect of all rivers and streams in excess of 3 metres in width.

However SO 5445 did lay off a Section 58 strip along the Ashley River. At renewal the lessee insisted on the renewal lease not carrying a clause relative to Part IV of the Conservation Act 1987 notwithstanding that SO 19023 defined the applicability of Section 24(9) Conservation Act 1987 (Marginal strips) along both sides of the Big Ben Stream within Run 225.

The full effect of Part IV of the Conservation Act 1987 will apply to any future disposition of the land.

6.2 Legal Roads – formed and paper

The Land Status Report indicates that S.O. Plans 5969 and 10866 (as supported by Topo Plan 52P) denote the roads that are legal by Section 110A of the Public Works Act 1928.

Four-wheel drive access is available to RS 42115 along the route of the unformed Mountain Road.

Similarly until recently four – wheel drive access has been available along the route of the unformed Sladdens Road. However recently an adjoining owner of commercially forested freehold land advised that the track on the Sladdens Road route had been washed out in some areas and that a new track had been formed that would provide access to the Run boundary.

Refer also Clause 8.1.

6.3 Fenced Boundaries v Legal Boundaries (peripheral):

The topographical plan does not reveal any significant boundary discrepancies.

7 Details of any neighbouring Crown or Conservation land:

North-Western Boundary *Part Run 300 - (Lees Valley Pastoral Lease)*

South Western *Reserve 4699 – Part Oxford Conservation Area (Stewardship land held pursuant to Section 62 of the Conservation Act 1987).*

8 Uncompleted actions or potential liabilities:

8.1 Access over Crown land and over freehold land in favour of Crown land – Potential Liability

In October 1998 Wilder Transport Limited (then owner of the adjoining RS 36971 – Part CT CB39C/850) wrote to Knight Frank seeking approval for access across part of Run 225 to enable ongoing inspection of trees and the mustering of wandering stock. In doing so the company advised that the legal (but unformed) extension to Sladdens Road (rough four - wheel drive access route) had washed out and was overgrown. A new track had been formed by it and another adjoining owner, Sladdens Bush Forest Limited (RS 35409 – Part CT CB39D/924) through RS 35409 to enable continuous forest management and this track is being maintained by Wilder.

The Commissioner on 26 October 1998 granted a right of access under the Land Act 1948 along the track on Run 225 until Court action in respect of the property was resolved subject to:

- a) Access being provided to the Crown across his (and presumably the other owners) via the new track.
- b) The gates within Run 225 being locked when not in use, and

c) Use of the land being restricted to access only.

The above access arrangement is a temporary one and the Crown could be faced with the potential liability of having to provide practical and legal access if disposition is not to an adjoining owner as the existing four wheel drive access legal road is unsatisfactory and/ or impassible.

Consequently a more permanent arrangement with the freehold owners could provide the opportunity for an access easement over the new track.

It is noted on the title to Wilders freehold land that Forestry Right was very recently surrendered but that may not necessarily influence the situation.

Copies of the relevant folios are attached as *Appendix 3*.

APPENDICES

Schedule A – Land Status Report.

1. Copy of forfeiture notice and cancelled Pastoral lease.
2. Copies of Variation and Caveat.
3. Copies of relevant folios – Access over formed track.

RE: ACCESS THROUGH FORMER MT OXFORD PASTORAL LEASE AND LG

Please refer to your fax of 11 October and the letter from Wilder Transport Ltd of 5 October 1998. From the map provided by Mr Wilder, it appears that he is seeking access through both the former LG and the former pastoral lease. He will therefore need to pass through all three of the gates locked by Knight Frank (NZ) Ltd. The keys to these three gates are held in our Christchurch office.

Yours faithfully

Attention: Carolyn Mason,

Dear Carolyn,

Please find enclosed photocopies giving detail of track and property descriptions, which I have attempted to put a running commentary along with a chart explaining the various colours.

Essentially from the top end of Sladdens Bush Road there is a trackway travelling up through properties known as R3739 and the run no 225 (View Hill). From my point of view the property #36971 requires access from the paper road and private tracks to enable continual forest maintenance.

The orange line shows the paper road as per your maps, however this has washed out and been allowed to overgrow. In addition a small wooden bridge across Trout Stream has collapsed. On that basis the owner of Lot 35409 and ourselves have put in a track connecting with paper road at the junction of 36971 and 35409. This track is maintained on an on-going basis by myself, enabling access to the track referred to and the management of the forest in and around the lots 35409, 36964 and so on.

The extension of the red line running along the top of the hill is a track that has not had a lot in the way of maintenance, however I have at my expense had some work done to clear slips. At the same time, the fenceline, more visual by your colour photograph clearly shows that the track does in three areas in fact encompass my land as the fence has obviously been placed and repaired to suit logic, of which I am sure neither of us are concerned about when referring to rocky portions that are easier fenced around than through.

Referring to the photograph, which is marked with a white line showing obviously the land which the Crown have interest in, shows a road that starts from nowhere and finishes nowhere. But at the point marked, there is a lock which denies access. Unfortunately this impedes our ability to check our trees and to recover some stock that has been wandering your land and at some point we would like the opportunity to muster them.

RECORDED UNDER THE
OFFICIAL INFORMATION ACT

[REDACTED] Red Line is where we need to travel to inspect trees

[REDACTED] This line shows paper road. Unfortunately road and wooden bridge has been washed out with no on-going maintenance.

[REDACTED] Blue lines show private road where new track has been put in by owner with myself maintaining in return for access

The owners of the land 35409; a consortium, have in the past permitted us to graze the land with sheep and give access through that land in return for an ongoing regular maintenance by way of pest control and general caretaker.

The access sought is obviously until such time as the property referred to is disposed of. We would again draw to your attention a willingness to the party to discussion with respect either purchase or ongoing lease of the land referred to as run 225 and any other that may be available. We trust that you will pass on our comments. We look forward to any further discussion to assist you in the near future.

Yours sincerely

Dave Wilder

the variation.

Document No.852649.1 records Variation of Terms of Lease registered on 25/01/1990.

Landcorp by letter (16/05/1995) to Cant Regional Council (f.367 - Volume 4) informed CRC the Water and Soil Conservation Plan (No.703650) had never been secured by way of a Land Improvement Agreement against the lease.

Landcorp Solicitor opinion re non - registration of LIA given to Landcorp manager (f.5.9 Volume 5). Solicitor suggested the CRC register a substitute agreement to reflect current ownership and due to monies being paid by the Crown that DOSLI could Caveat the title to protect the Crown interests.

CCL confirmed Caveat action (to protect the Crowns interest until a Land Improvement Agreement was registered) with document signed by DG/SG sent to Landcorp (5.19 - Volume 5)

By Document No. A182156.1 Caveat registered by Department of Land Information on 07/07/1995.

THE LAND IMPROVEMENT AGREEMENT WAS NEVER REGISTERED AGAINST THE LEASE AND THE CAVEAT HAS NO LEGAL EFFECT AS A CONSEQUENCE OF FORFEITURE AS DOES THE SURRENDER ACTION PROTECTED BY VARIATION 852649.1 (as confirmed to me by Kit Mossat, Solicitor).
