Schedule Two: Provisions relating to the Schedule Two Land

1 Details of designation

1.1 Under this Proposal the land shown marked in brown on the Plan, being 53 hectares (approximately) is designated as land to be restored to or retained in Crown control as conservation area subject to:

(a) the granting of the concession substantially as set out in Appendix 4.

2 Information Concerning Proposed Concession Farm Management Purposes

2.1 The proposed easement Concession provides access to adjoining farm land for farm management purposes.

2.2 The easement follows a 4-wheel drive track which crosses Bush Camp Stream near where it joins the Wairau River at Grid Reference N29 121 406. Another small access easement is required across Bush Camp Stream approximately 1km upstream from the Wairau River and an easement for stock access over flats at Grid Reference N29 133 409.

This Concession easement will be over public Conservation land and will be granted under section 17Q Conservation Act 1987.

2.3 The area of Bush Camp Stream is a forested gully of beech and kanuka that has not been grazed due to the fact that it has been fenced and has frontage to steep stream banks. The other area is a Wetland area north of Bush Camp Stream along River Flats.

2.4 This easement is along an existing 4-wheel drive farm track. The principle user will be the holder of the adjoining freehold, as this will allow the Raglan Station access to their back block of freehold country. Indiscriminate use may cause the track to deteriorate and become impassable. However, as the easement is only 10 metres in width, this will ensure that any localised damage is confined to a limited area. The Concession document ensures that the provisions of the Conservation Act apply.

Any maintenance of the track is the responsibility of the Concessionaire.

Stock movement along the track may cause some localised grazing and weed problems. This situation will, however, be closely monitored, and the Concessionaire has the responsibility of controlling weeds.

2.5 The easement Concession is granted in perpetuity.

2.6 This access route is critical to the operation of Raglan Station as this review affects the only practical farm access track along the Wairau River terrace. This access way allows the holder to farm the freehold land in an economic and sustainable way. The easement must therefore be for the longest possible term to give the holder permanent access rights.

2.7 The proposed grantee is the Holder. The track over which the proposed access easement is proposed has been used for farming purposes by the Holder for a number of years. The impact on the landscape during this time has been minimal.
