Download UniPrint Client

PurposeInstall UniPrint ClientAlertYou must have installed the Citrix software before installing UniPrint Client.
If not, please return to Software downloads to download Citrix.

Note: Appearance of screen shots may differ due to display settings.

1) – Installation tasks -This requires Administrator rights

- Login to your PC with an account with Local Administrator rights
- To disable the User Account Control, navigate to Control Panel/User Accounts and uncheck the box.

NOTE: Please remember to enable this box again when the installation has finished.

2) – Download UniPrint Client App

• Download <u>UniPrint Client v 5.4.1</u>

Some users may experience problems with this web installer. As an alternative you can also download directly from the UniPrint website: <u>uniprint.net/en/uniprint-client</u> (link is external)

3) – Security Warning

- A File Download Security Warning screen will appear
- Choose Save this program to disk
- Click OK
- Choose an appropriate location to save the file to. (Take note of the location and filename)

NOTE: We recommend using the "Save to disk" option as it means that you will not need to download the installation file a second time if you need to reinstall this software on your computer or another computer in the organisation.

4) Select .exe File

• Once the file has downloaded, double click on the .exe file.

Alert

You must be logged in with **Administrator rights** to continue with this installation. Previous versions of UniPrint will uninstalled as part of this installation

5) UniPrint will begin downloading
