

DOC Allocation Plans

Land or foreshore is deemed to be held for conservation purposes under s 62(1) of the Conservation Act 1987 if:

- (a) immediately before the commencement of the Conservation Act 1987 it was State forest land or Crown land; and
- (b) it was not forest sanctuary, forest park, ecological area, or wilderness area; and
- (c) it is land that the Minister, and the Minister responsible for the department or agency of State that then had control of it, have agreed should be held for conservation purposes; and
- (d) it is identified for the purposes of this section on plans lodged in the office of the Chief Surveyor for the land district in which the land or foreshore is situated (being plans certified as correct for the purpose of this section by that Chief Surveyor),

Under the environmental restructuring in the 1980's, Ministerial committees allocated land formerly managed by the Lands & Survey Department and the Forest Service to the Department of Conservation (DOC) and State-Owned Enterprises (SOEs). Such allocations to DOC are taken to constitute agreement for the purpose of (c) above.

The 'plans' referred to in (d) comprise marked up cadastral record maps (NZMS 261), with accompanying schedules. These plans have been given SO plan numbers.

Due to the wide spatial coverage of each SO plan, it can be difficult to find the relevant plan number in Landonline's spatial record of the parcel fabric. The SO plans are therefore listed below in relation to each Land District and NZMS 261 sheet number. The LINZ data service (LDS) provides an [index to the NZMS 260 map series](#), which has the same sheet numbers as the NZMS 261 map series.
