Hi [s 9(2)(a)]

I've spoken with LINZ who are happy to support the council in its endeavours to resolve the problem with the pump station. I've reviewed the lease which does not specifically require compliance with statutory or local body acts, hopefully we won't need to test this.

I'll leave it with you to discuss access with the Marae .

You mentioned last time we met that you'd be meeting with LINZ to discuss instability issues at 58 Akoranga Drive, liabilities, etc... Any feedback? We have yet to discuss access for works around the pump station with the Marae - i wanted to hear back from you before making an appointment.

Cheers,

ps. The latest inclinometer readings indicate that there has been some movement during the dry months (more than expected). The geotechnical engineers suggest that an increase in ground water level may result in further, more rapid movement.

My apologies for not getting back to you sooner unfortunately, we have been flat out trying to resolve numerous project issues before the break.
I will be back to work briefly on the 5-8 Jan and then again from the 18th. I am likely to be in Auckland on the 6th Jan and can meet with you that afternoon, otherwise i will be up again later in the month, dates yet to be confirmed.

Please advise if the afternoon of the 6th Jan suits

Hi [s 9(2)(a)]

I have the report thanks. I will provide a copy to LINZ for discussion and will get back to you to arrange a time to discuss following.

I've only had a brief look at the report but was wondering what the council's position is.

H [s 9(2)(a)]

The geotechnical investigation regarding instability around the wastewater pumpstation has been completed and i have sent you a hard copy of the report in the mail. Attached is the cover letter you'll receive, which states that i'm going to coordinate a meeting to discuss the report and remedial measures related to the pump station and surrounding areas.

I was hoping to get together sometime in the next few weeks. Are there any times that suit you or conversely, when you are unavailable?

Regards,
