FISH AND GAME RESOURCES REPORTS

The Simons Pass property is located in the central Mackenzie Basin at the south end of Lake Pukaki and encompasses 5670 hectares. The property has limited Fish and Game values however the road down the Pukaki River provides important vehicle angler access to the Tekapo River.

With intensified agricultural land development gamebird numbers will likely increase, especially Canada goose and duck species and access for hunters should be made available.

Please do not hesitate to contact me should you require further information.
