2 Conditions

2.1 This Proposal, and any agreement arising therefrom, is subject to the conditions contained in Schedule Four (if any).

3 Settlement

3.1 Unless otherwise agreed by the parties, the Settlement Date for the disposal of the Freehold Land to the Holder by freehold disposal will be the day that is TEN (10) working days following the day on which Land Information New Zealand notifies the Commissioner that the Final Plan and a copy of this Proposal are registered in accordance with the Act.

3.2 The Freehold Land will be disposed of to the Holder under the Land Act 1948.

3.3 Notwithstanding anything to the contrary, if, as at the Settlement Date (as determined pursuant to clause 3.1), the rent payable under the Lease is subject to a Rent Review, then the Commissioner may elect to:

(a) settle on the Settlement Date on the basis that the Commissioner may retain from the Commissioner's Payment an amount which the Commissioner, acting reasonably, estimates will be payable by the Holder to the Commissioner following agreement or determination of the Rent Review ("the Retention"). The Retention shall be held by the Crown Law Office in an on-call, interest-bearing trust account in the joint names of the parties for their respective rights and interests. Upon agreement or determination of the Rent Review, the Commissioner shall calculate the rent shortfall payable by the Holder to the Commissioner in respect of the period from the effective date of the Rent Review to the Settlement Date, both dates inclusive ("the Shortfall"). If:

(i) the Shortfall is less than the Retention and the net interest earned thereon, the balance shall be paid by the Commissioner to the Holder within TEN (10) working days; or

(ii) the Shortfall is more than the Retention and the net interest earned thereon, the balance shall be paid by the Holder to the Commissioner within TEN (10) working days;

or

(b) defer the Settlement Date until TEN (10) working days after the rent payable as a consequence of the Rent Review:

(i) has been agreed or determined; and

(ii) is not and will not be subject to any appeal, rehearing or other proceedings.

4 Holder’s Payment

4.1 By 3.00 p.m. on the Settlement Date, the Holder must pay the Holder’s Payment and all other money payable to the Commissioner or the duly appointed agent of the Commissioner by bank cheque without set-off or deduction of any kind in accordance with the settlement requirements of the Commissioner.

4.2 If the Holder fails to pay the Holder’s Payment or any part of it or any other money to the Commissioner or to the duly appointed agent of the Commissioner on the Settlement Date clause 19 will apply.

5 Commissioner’s Payment
5.1 The Commissioner shall pay the Commissioner's Payment to the Holder on the Settlement Date.

5.2 No interest shall be payable to the Holder by the Commissioner in respect of the Commissioner's Payment, including (without limitation) for the period from the Vesting Date to the Settlement Date.

6 Vesting of Crown Land

6.1 The Crown Land will vest in the Crown on the Vesting Date.

7 Issue of Certificate of Title

7.1 Notwithstanding any other provision in this Proposal, the Commissioner will not request that the Surveyor-General issue a certificate to the Registrar pursuant to section 116 of the Land Act 1948 (to enable a certificate of title to issue for the Freehold Land) unless and until:

(a) the Commissioner has received the Holder's Payment from the Holder under clause 4, and all other money payable by the Holder under this Proposal and the Notice;

(b) the Holder has provided to the Commissioner duplicate copies of the certificate of title relating to the Lease (if any) and/or the Lease if requested by the Commissioner;

(c) the Holder has signed and returned to the Commissioner all documents required by the Commissioner to be signed by the Holder to give effect to this Proposal (including, without limitation, any permit, covenant, easement and/or any other document); and

(d) the Holder has procured a registrable discharge of any Mortgage and provided this to the Commissioner together with any new mortgage documents to be registered against the Freehold Land.

8 Registration of Documents

8.1 Subject to clause 7, the Commissioner will lodge all documents necessary to give effect to this Proposal (including, without limitation any easement, covenant, discharge of mortgage, and/or duplicate copy of the Lease) and any new mortgage documents to be registered against the certificate of title to be issued for the Freehold Land so that the certificate of title for the Freehold Land will issue subject to the encumbrances provided in this Proposal. Any new mortgage will be registered after any other encumbrances such as any easements and/or covenants are registered.

9 Consents

9.1 The Holder must obtain the written consent to the Holder's acceptance of this Proposal from all persons having an interest in the Land (other than the Holder), including, but not limited to:

(a) any Mortgagee(s);

(b) any party entitled to the benefit of a land improvement agreement registered against the Lease and/or the Land; and

(c) any other person that the Commissioner reasonably believes has an interest in the Land or who the Holder reasonably believes has an interest in the Land, whether registered or not.

9.2 The consents required under clause 9.1 must be in a form acceptable to the Commissioner in all respects and be returned to the Commissioner with this Proposal on its acceptance by the Holder. Examples of the form of consents required under clause 9.1 are set out in Appendix 1.

9.3 The Holder must also obtain, and provide to the Commissioner if requested, all consents necessary for the Holder to accept this Proposal including (without limitation) any:

(a) corporate and/or trustee consents; and

(b) consent required under the Overseas Investment Act 2005 and the Overseas Investment Regulations 2005.
9.4 The Holder will procure the Mortgagee to execute a registrable discharge of the Mortgage and, if required by the Mortgagee, the Holder will execute registrable new mortgage documents and forward these to the Commissioner to be registered as set out in clause 8.

9.5 If required by the Mortgagee, the Commissioner will provide an undertaking that, subject to the provisions of clause 7 being satisfied, the Commissioner will register the discharge of the Mortgage and register any new mortgage against the certificate of title for Freehold Land at the same time as the certificate of title for the Freehold Land issues.

10 Continuation of Lease

10.1 The Lease will remain in full force and effect until a certificate of title issues for the Freehold Land. Notwithstanding when Settlement Date occurs, until a certificate of title issues for the Freehold Land the Holder will duly and punctually comply with all obligations on its part under the Lease (other than as set out at clause 12.1 (b)) and the Lease will remain in full force and effect.

10.2 From the date that a certificate of title is issued for the Freehold Land the Lease is deemed to be surrendered and, subject to clause 10.3, the Commissioner releases and discharges the Holder from the performance and observance of all covenants, conditions and obligations under the Lease.

10.3 The release and discharge in clause 10.2:
(a) is without prejudice to the rights, remedies and powers of the Commissioner contained in the Lease (except as varied in accordance with clause 12.1(b)); and
(b) will not release or discharge the Holder from any liability under the Lease, arising prior to the date that the certificate of title for the Freehold Land is issued, under any statute or by any reason where such liability is due to the fault of the Holder.

10.4 As from the Vesting Date, the Holder will not have any estate, right or claim against any of the land, improvements, fencing, buildings, structures, fixtures, fittings or chattels on the Crown Land (subject to the provisions of any permit, easement, concession, other encumbrance or document provided under this Proposal). The Holder will not be entitled to any compensation for any of its improvements, fencing, buildings, structures, fixtures, fittings or chattels which are on the Crown Land as at the Vesting Date.

11 Fencing and Construction Works

11.1 If the Holder has accepted this Proposal and that acceptance has taken effect pursuant to the Act, the Commissioner will, subject to clauses 11.2 and 14.4, erect at the Commissioner's cost new fencing:
(a) approximately along the line marked "New Fencing Line" on the Plan; and
(b) to the specifications in Appendix 3;
("the Fencing").

11.2 If the Fencing requires a resource consent or any other consent from any local or territorial authority ("the Fencing Consent"), the following provisions shall apply:
(a) The Commissioner shall use reasonable endeavours to obtain the Fencing Consent within 6 months of this Proposal taking effect pursuant to the Act.
(b) If the Fencing Consent:
(i) is not obtained within 6 months of this Proposal taking effect pursuant to the Act; and/or
(ii) is obtained on terms which are not satisfactory to the Commissioner in all respects;
the Commissioner may, acting reasonably, elect to do any one or more of the following:

(iii) erect the Fencing in a position different from that shown on the Plan;

(iv) erect the Fencing over a shorter distance than that shown on the Plan; or

(v) erect the Fencing to specifications different from those in Appendix 3.

11.3 If the Commissioner has not completed the Fencing by the Settlement Date, the Holder agrees that the Commissioner may register a covenant, on terms entirely satisfactory to the Commissioner (in the Commissioner's sole discretion), over the Freehold Land to enable the Commissioner to complete the Fencing. The Holder will do all things necessary (including signing any document) to enable the Commissioner to register such a covenant.

11.4 The ongoing maintenance of the Fencing referred to in clauses 11.1 and 11.2 will be subject to the terms of the Fencing Act 1978.

11.5 If the Holder has accepted this Proposal and that acceptance has taken effect pursuant to the Act, [the Commissioner] [the Holder] [both parties] will, subject to clause 11.6, undertake the construction works set out in Appendix 3 on the terms and conditions set out in Appendix 3 ("the Construction Works").

11.6 If any Construction Works for which the Commissioner is liable, or jointly liable with the Holder, require a resource consent or any other consent from any local or territorial authority ("the Works Consent"), the following provisions shall apply:

(a) The Commissioner shall use reasonable endeavours to obtain the Works Consent within 6 months of this Proposal taking effect pursuant to the Act.

(b) If the Works Consent:

(i) is not obtained within 6 months of this Proposal taking effect pursuant to the Act; and/or

(ii) is obtained on terms which are not satisfactory to the Commissioner in all respects;

the Commissioner may, acting reasonably, elect to vary the extent of the Construction Works in question and/or the terms and conditions upon which they are carried out.

12 Apportionments

12.1 Rent payable under the Lease in respect of the Freehold Land shall be apportioned as follows:

(a) Rent paid or payable will be apportioned on the Settlement Date as at the Settlement Date and either deducted from or added to (as the case may be) the amount required to settle.

(b) Notwithstanding that the Lease continues in effect until a certificate of title issues for the Freehold Land, the Holder shall not be required to pay any rent under the Lease for the Freehold Land from the Settlement Date.

12.2 Rent paid or payable under the Lease for the Crown Land will be apportioned on the Settlement Date as at the Vesting Date and either deducted from or added to (as the case may be) the amount required to settle.

12.3 All rates, levies, and all other incomings and outgoings and other charges receivable from or charged upon the Freehold Land will, unless otherwise agreed by the parties, be apportioned on the Settlement Date as at the Settlement Date.
12.4 All rates, levies and all other incomings and outgoings and other charges receivable from or charged upon the Crown Land will be apportioned on the Settlement Date as at the Vesting Date and either deducted from or added to (as the case may be) the amount required to settle.

12.5 Following the date that a certificate of title issues for the Freehold Land, the Commissioner will undertake a final apportionment and either the Commissioner will pay to the Holder, or the Holder will pay to the Commissioner, any additional amounts due because of any payments made or received by one party on behalf of the other for the period from the Settlement Date to the date on which a new certificate of title issues for the Freehold Land.

13 Risk

13.1 On and with effect from the Unconditional Date all risk of any nature in respect of the Freehold Land will pass from the Commissioner to the Holder. For the avoidance of doubt, the Holder’s current risk in respect of matters arising under the Lease, including, without limitation, the Holder’s risk in respect of all improvements, buildings, fencing, fixtures, fittings and chattels, will continue to remain with the Holder until the Lease is deemed to be surrendered under clause 10.2.

13.2 The Holder will be required to comply with its settlement obligations under this Proposal irrespective of any damage to, or destruction of, the Freehold Land prior to the Settlement Date.

14 Survey

14.1 All areas of the Land forming part of this Proposal and delineated on the Plan are approximate and subject to preparation of the Final Plan. The measurements of the areas may therefore alter on the Final Plan.

14.2 No error, misdescription or amendment of any part of the Land will annul, vary, or derogate from this Proposal, or the Holder’s acceptance of this Proposal.

14.3 For the avoidance of doubt, the Holder will not be entitled to cancel or withdraw its acceptance of this Proposal, nor will the Holder, or any successor in title of the Holder or any party with an interest in the Land, be entitled to payment of any compensation, should any area of the Land on the Final Plan have a different measurement to the area specified in this Proposal.

14.4 The Commissioner does not warrant that any existing fence is erected on, or that any new fence to be erected will be on, any boundaries of the Land or any part of the Land as outlined on the Plan or the Final Plan.

15 Holder’s Acknowledgements

15.1 If the Holder accepts this Proposal and that acceptance takes effect under the Act, the Holder acknowledges that:

(a) it is obtaining the freehold interest in the Freehold Land:
   (i) “as is”, solely in reliance on its own investigations and judgement; and
   (ii) not in reliance on any representation or warranty made by the Commissioner, its employees, agents or any other person or persons directly or indirectly associated with the Commissioner;

(b) the Holder has carried out all inspections of the Freehold Land which the Holder considers necessary to satisfy itself as to all matters relating to the Freehold Land;

(c) the Holder, at its cost, is entirely responsible for all work to ensure that the Freehold Land complies with all applicable laws including (without limitation):

   (iii) the Building Act 2004 and the Building Amendment Act 2009; and

(d) nothing in this Proposal is affected by, and the Commissioner has no liability of any nature in respect of, the existence or terms of any leases, licences or other occupation rights of any nature (if any) granted by the Holder in respect of the Land; and

(e) the Holder has no claim (and will not have any claim) whatsoever against the Crown and/or Commissioner in relation to the Tenure Review and/or this Proposal, including (without limitation) any claim for any misrepresentation or for any loss or damage suffered whether in contract, tort (including negligence) or otherwise.

16 No Representations or Warranties by the Commissioner

16.1 The Commissioner gives no representations or warranties of any nature in respect of the Freehold Land. Without limitation, the Commissioner does not warrant:

(a) the accuracy of any matter in the Notice or this Proposal or in any notice, or any correspondence or other information provided to the Holder by the Commissioner or by any agent, contractor or employee of the Commissioner; or

(b) that the Freehold Land is or will remain suitable for the Holder’s use; or

(c) that the Freehold Land complies with all or any statutory, territorial authority or any other legal requirements affecting or relevant to the Freehold Land.

17 Acceptance

17.1 The Holder’s acceptance of this Proposal is irrevocable and constitutes a binding agreement between the Commissioner and the Holder.

17.2 If the Commissioner does not receive an acceptance to this Proposal from the Holder within three (3) months of putting it (in its substantive form) to the Holder, the Holder is deemed to have rejected this Proposal.

18 Solicitors Certificate

18.1 The Holder must procure the Holder’s solicitors to provide the Commissioner with a solicitor’s certificate (in a form satisfactory to the Commissioner, in its reasonable opinion) relating to such matters as the Holder’s execution of this Proposal and the Holder’s execution of any documents required to give effect to this Proposal (including, without limitation any easement, protective mechanism and/or concession). An example of the form of solicitors certificate required is set out at Appendix 2.

18.2 The Holder must return the completed solicitor’s certificate to the Commissioner with this Proposal on its acceptance by the Holder.

19 Default

19.1 If from any cause whatever (except the default of the Commissioner) all or any part of the Holder’s Payment or any other money payable by the Holder to the Commissioner is not paid on the due date the Holder will pay to the Commissioner interest at the Default Rate on the part of the Holder’s Payment or any other money payable by the Holder to the Commissioner so unpaid from the due date until the date of actual payment in full.

19.2 The Commissioner’s rights under this clause 19 are without prejudice to any other rights or remedies available to the Commissioner at law or in equity.

20 Goods and Services Tax

20.1 Unless the context otherwise requires, words and phrases used in this clause have the same meaning as in the GST Act.
20.2 If the supplies evidenced by the Holder’s Consideration and the Commissioner’s Consideration are taxable supplies under the GST Act, then:

(a) the Commissioner and the Holder warrant to each other that they are registered for GST purposes as at the Holder’s acceptance of this Proposal and that they will be so registered on the Settlement Date;

(b) the Commissioner and the Holder confirm that as at the Settlement Date:

(i) each is acquiring the goods supplied with the intention of using the goods for making taxable supplies; and

(ii) the Commissioner and any associated person in terms of section 2A(1)(c) of the GST Act do not intend to use the Crown Land and the Holder and any associated person in terms of section 2A(1)(c) of the GST Act do not intend to use the Freehold Land as a principal place of residence; and

(c) the Commissioner and the Holder agree that the supplies evidenced by the Holder’s Consideration and the Commissioner’s Consideration are to be zero-rated for GST purposes under section 11(1)(mb) of the GST Act.

20.3 If any of the circumstances set out in clause 20.2 change between the date of the Holder’s acceptance of this Proposal and the Settlement Date, then the relevant party will notify the other of the changed circumstances as soon as practicable and in any event not later than 2 working days before the Settlement Date and such party shall warrant that the changed circumstances are correct as at the Settlement Date. If the GST treatment of the supplies evidenced by the Holder’s Consideration and the Commissioner’s Consideration changes as a result of the changed circumstances and a party has already provided the other with a GST invoice, then that party will issue a debit note or credit note, as the case may be, for GST purposes.

20.4 On the 10th working day following the Unconditional Date, the Commissioner will provide to the Holder a GST invoice in respect of the supply evidenced by the Holder’s Consideration. The invoice will specify the Commissioner’s GST Date.

20.5 The Holder will pay GST (if any) on the Holder’s Consideration to the Commissioner by bank cheque on the Commissioner’s GST Date, time being of the essence.

20.6 On the 10th working day following the Unconditional Date, the Holder will provide to the Commissioner a GST invoice in respect of the supply evidenced by the Commissioner’s Consideration.

20.7 The Commissioner will pay GST (if any) on the Commissioner’s Consideration to the Holder on the Commissioner’s GST Date, time being of the essence.

20.8 Where any GST is not paid to the Commissioner or to the Holder (as the case may be) in accordance with this clause 20, the Holder will pay to the Commissioner, or the Commissioner will pay to the Holder (as the case may be), upon demand and together with the unpaid GST:

(a) interest, at the Default Rate, on the amount of the unpaid GST and which will accrue from the Commissioner’s GST Date until the date of payment of the unpaid GST; and

(b) any Default GST.

21 Lowest price

21.1 The Holder’s Consideration does not include any capitalised interest and the parties agree that the “lowest price” for the purposes of valuing the Freehold Land under section EW 32(3) of the Income Tax Act 2007 is equal to the Holder’s Consideration.

21.2 The Commissioner’s Consideration does not include any capitalised interest and the parties agree that the “lowest price” for the purposes of valuing the Crown Land under section EW 32(3) of the Income Tax Act 2007 is equal to the Commissioner’s Consideration.
Costs

22.1 The Commissioner will meet the costs of the survey (if any) of the Land, including all designation areas, the Final Plan and for a certificate of title to issue for the Freehold Land.

22.2 The Holder is responsible for all costs the Holder incurs in respect of and incidental to the Tenure Review. In particular, but without limitation, the Holder shall bear all its costs in relation to the review of all documentation forming part of the Tenure Review (including this Proposal), and all professional advice provided to or sought by the Holder.

No nomination or assignment

23.1 The Holder is not entitled to, and is expressly prohibited from, nominating another person to perform the Holder’s obligations under this Proposal or assigning to another person the Holder’s interest (or any part) under this Proposal.

Recreation Permit

24.1 Immediately on the registration of the Final Plan and a copy of the proposal to which it relates over the Land and pursuant to s64 of the Act, any recreation permit granted over the Land shall be determined.

Consents for Activities

25.1 If the Holder has been granted a consent by the Commissioner to do an activity on the land under sections 15 or 16 of the Act, and the area over which the consent is exercised is designated in the proposal as Crown Land then the Holder agrees to act in good faith whilst exercising the terms of consent and not damage or destroy the Crown Land or anything thereon.

General

26.1 This Proposal and the Notice:
(a) constitute the entire understanding and agreement between the Commissioner, the Crown and the Holder in relation to the Tenure Review; and
(b) supersede and extinguish all prior agreements and understandings between the Crown, the Commissioner and the Holder relating to the Tenure Review.

26.2 Each provision of this Proposal will continue in full force and effect to the extent that it is not fully performed at the Settlement Date.

26.3 The Holder must comply with the Commissioner’s requirements for the implementation and settlement of the Tenure Review contemplated by this Proposal.

26.4 The Commissioner and the Holder will sign and execute all deeds, agreements, schedules and other documents and do all acts and things as may be reasonably required by the other to effectively carry out and give effect to the terms and intentions of this Proposal.

26.5 This Proposal is governed by, and must be construed under, the laws of New Zealand and the Commissioner and the Holder Irrevocably submit to the jurisdiction of the New Zealand courts or other New Zealand system of dispute resolution.

2.2 Description of area where proposed activity to be carried out and proposed status:

The area of the Concession Activity is over the area designated as Conservation Area of 6,203 hectares approximately on the plan attached to the proposal. The area covers the lower eastern and southern slopes of the Agassiz Range, the lower slopes associated with the junctions of the West Mathias River and the South Mathias River with the Mathias River along to Jerusalem Stream, the Mathias River faces of the Ragged Range from Long Spur south to the junction with the Rakaia River, the Rakaia River faces of the Ragged Range and flats at the southern foot of the Ragged Range from the junction with the Mathias River west beyond Totara Point to include the Cattle Creek catchment and Rakaia River faces to slightly west of Duncan Stream.

2.3 Description of potential affects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse affect

The Tourism Concession is limited to guided tours, guided hunting, guided fishing, heliskiing, heliboarding, aerial positioning of recreationists and guided parties, and commercial filming. The potential affects include potential damage to the flora and fauna by people moving through the area, although this may also happen with general public use of the Conservation Area for similar purposes, and the impacts of helicopter activities. The Concession Licence document ensures that the provisions of the Conservation Act apply and includes monitoring of the concession activity. Through Schedule 2 limitations are placed on party sizes and restrictions on aircraft activities. Schedule 2 ensures the rights of the public are not restricted. The concession provisions ensure that all potential affects will be minimised.

2.4 Details of the proposed type of concessions:

2.5 Proposed duration of concession and reason for proposed duration

(a) Proposed duration: 20 years.

(b) Reasons for proposed duration -

The Tourism Concession Licence has been sought to allow the holders to continue with their existing tourism operations on the property for which current recreation permits are already held. It will also allow for the diversification of the holders farming activities in the future.

2.6 Relevant information about the proposed Concessionaire including information relevant to the Concessionaire's ability to carry out the proposed activity:

(a) Proposed grantee - Manuka Point Station Company Limited

(b) Relevant Information -

(i) The holders of Manuka Point Pastoral Lease have entered into this review voluntarily. The proposed tourism concession is needed for the continuation of the existing tourism operations run by the holders. Manuka Point Station Company Limited has successfully run their existing tourism activities for a
number of years and have the knowledge of the property and proven ability to continue with successful tourism activities. The proposed tourism activities will have minimal impact on the area.

3 Information Concerning Proposed Concession as set out in Appendix 5

3.1 Description of the proposed activity:

Grazing concession for grazing for a maximum of 120 head of sheep only from 1 May to 30 September each calendar year on the Mathias Faces, and grazing for a maximum of 190 head of sheep only from 1 October to 30 April each calendar year on the Rakaia River Flats.

3.2 Description of area where proposed activity to be carried out and proposed status:

The location of the Mathias Faces Grazing Concession is over the lower eastern slopes of the Ragged Range above the Mathias River immediately north west of Big Paddock Creek.

The location of the Rakaia River Flats Grazing Concession is over an area of the Rakaia River river flats at the southern end of the Ragged Range adjacent to Jellicoe Stream.

Both areas will be designated as land to be restored to or retained in Crown Control as a Conservation Area subject to a grazing concession.

3.3 Description of potential affects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse affect:

The Mathias Faces area is a mosaic of mountain beech forest and broadleaf forest, shrubland, tussock grassland, exotic grassland and bracken fern.

The Rakaia River Flats area is predominantly matagouri shrubland with short modified grassland.

A potential threat to the area is overstocking which would effect the potential regeneration of native plant communities.

Grazing has traditionally been a component of this area. In order to achieve an outcome as part of the tenure review process some controlled grazing was agreed to as being essential to the farming operations of the property. It was considered that in order to mitigate any adverse effect on the land during the term of the Grazing Concession, the Grazing Concession should contain a number of conditions including, but not limited to, the following:

1. Stock limits as detailed in Clause 1 above during the proposed term of the Grazing Concession.
2. Pest control if required by the Minister of Conservation, the costs to be borne by the Concessionaire.
3. The Minister of Conservation may set up a monitoring system to ascertain the effects of on-going grazing and this monitoring system will be reviewed every three years. The Minister of Conservation reserves the right to adjust the stock numbers in order to meet conservation objectives.
4. The term of the grazing concession is limited to 20 years with no right of renewal.

3.4 Details of the proposed type of concessions:

3.5 Proposed duration of concession and reason for proposed duration
Proposed duration: 20 years from registration of an approved plan affecting Certificate of Title CB 52971.

Reasons for proposed duration:

(a) to allow security of tenure to the Concessionaire for farm management purposes while adjustments are made to the current farming practices; and
(b) to allow for monitoring results and adjustments in stock numbers if required.

3.6 Relevant information about the proposed Concessionaire including information relevant to the Concessionaire's ability to carry out the proposed activity:

Proposed grantee - Manuka Point Station Company Limited

Relevant Information - The significant inherent values have been surviving under the current grazing regime. Manuka Point Station Company Limited has the ability to farm the area without serious effect on conservation objectives while adjustments are made to current farming practices.

This information is critically important and helps us to manage the effects of all activities including the cumulative impacts on conservation and recreation values. We need to know how many trips you make to each site and the party size of each trip. If you make more than one trip to the same site on the same day please record each trip on a new line. We appreciate your time and efforts to supply this information accurately and promptly.

SCHEDULE 4

Environmental Care Code

Protect Plants and Animals
Treat New Zealand’s forest and birds with care and respect. They are unique and often rare.

Remove Rubbish
Litter is unattractive, harmful to wildlife and can increase vermin and disease. Plan your visits to reduce rubbish, and carry out what you carry in.

Bury Toilet Waste
In areas without toilet facilities, bury your toilet waste in a shallow hole well away from waterways, tracks, campsites and huts.

Keep Streams and Lakes Clean
When cleaning and washing, take the water and wash well away from the water source. Because soaps and detergents are harmful to water life, drain used water into the soil to allow it to be filtered. If you suspect the water may be contaminated, either boil it for at least three minutes, or filter it, or chemically treat it.

Take Care With Fires
Portable fuel stoves are less harmful to the environment and are more efficient than fires. If you do use a fire, keep it small, use only dead wood and make sure it is out by dousing it with water and checking the ashes before leaving.

Camp Carefully
When camping, leave no trace of your visit.

Keep to the Track
By keeping to the track, where one exists, you lessen the chance of damaging fragile plants.

Consider Others
People visit the back-country and rural areas for many reasons. Be considerate of other visitors who also have a right to enjoy the natural environment.

Respect Our Cultural Heritage
Many places in New Zealand have a spiritual and historical significance. Treat these places with consideration and respect.

Enjoy Your Visit
Enjoy your outdoor experience. Take a last look before leaving an area; will the next visitor know that you have been there?

Protect the environment for your own sake, for the sake of those who come after you, and for the environment itself.

Water Care Code

Find Out First
Find out and follow the regulations governing recreational use of waterways and access. They are designed to minimise conflict between users and protect everyone’s health and safety.

Stay on Established Tracks and Use Existing Facilities
By using existing facilities, where these are provided, you run less chance of disturbing wildlife and damaging riverbanks and foreshores.

Take Care of Your Gear
Careless use of equipment can harm wildlife and other users.

Remove Rubbish
Litter is unattractive, harmful to wildlife and pollutes water. Plan your visit to reduce rubbish, and carry out what you carry in.

Dispose of Toilet Waste Properly
Improper disposal of toilet waste can contaminate water, damage the environment and is culturally offensive. Use disposal facilities where provided or bury waste in a shallow hole at least 50 metres away from waterways.

Be Careful with Chemicals
Use chemicals sparingly, and refuel with care. Dispose of cooking or washing water well away from the source.

Respect Our Cultural Heritage
Many New Zealand waterways have special cultural, spiritual or historical values. Treat these places with consideration and respect.

Take Only the Food You Need
When taking food from the sea or freshwater, don’t overdo it. Sustain life in our waterways by taking only what you need and no more than the legal limit.

Consider Plants and Animals
Remember we are only visitors to water environments. Other animal and plant species live there all the time.

Consider Other People
Respect other visitors ... everyone has the right to enjoy the environment in safety.
SCHEDULE 5

Didymo (and other freshwater pests) prevention guidelines

Stop the spread

Didymo is an invasive freshwater alga that can form massive blooms, smothering rocks, submerged plants and other material. Didymo is made up of cells that cannot be seen with the naked eye until large colonies form. It can take only one live didymo cell to be transported to a nearby waterway for didymo to become established.

Didymo is an unwanted organism under the Biosecurity Act, 1993. Under the Act, it is illegal to release, spread, sell or breed unwanted organisms. There is a $100,000 fine or five years imprisonment for people caught doing so.

To ensure you do not spread didymo, wherever possible restrict equipment, vehicles, boats, clothing and other items for exclusive use in a single waterway.

The Concessionaire shall:

1. Before entering a waterway, ensure all equipment, clothing and vehicles that have been in contact with another waterway, have been decontaminated for didymo in accordance with the cleaning methods listed below.

2. When leaving a waterway, ensure all equipment, clothing and vehicles that have been in contact with the waterway, have been decontaminated for didymo in accordance with the cleaning methods listed below.

3. Not move fish, plants, rocks and other river/lake items between waterways.

4. Ensure felt-soled footwear is not worn in any waterway.

Cleaning methods—didymo

CHECK: Before you leave a river or lake, remove all obvious clumps of algae and look for hidden clumps—leave them at the affected site. If you find any later, treat and put in rubbish. Do not wash down drains.

CLEAN: There are several ways to kill didymo. Choose the most practical treatment for your situation which will not adversely affect your gear.

Non-absorbent items

Detergent: soak or spray all surfaces for at least one minute in 5% dishwashing detergent or nappy cleaner (two large cups or 500 mls with water added to make 10 litres); OR

Bleach: soak or spray all surfaces for at least one minute in 2% household bleach (one small cup or 200 mls with water added to make 10 litres); OR

Hot water: soak for at least one minute in very hot water kept above 60 °C (hotter than most tap water) or for at least 20 minutes in hot water kept above 45 °C (uncomfortable to touch).
Absorbent items require longer soaking times to allow thorough saturation.

Hot water: soak for at least 40 minutes in hot water kept above 45 °C; OR

Hot water plus detergent: soak for 30 minutes in hot water kept above 45 °C containing 5% dishwashing detergent or nappy cleaner; OR

Freezing any item until solid will also kill didymo.

NOTE: The thicker and denser the material, the better it will be at holding moisture and live cells, the slower it will be to dry out and the more difficult it will be to soak completely with cleaning solutions.

DRY: Drying will kill didymo, but slightly moist didymo can survive for months. To ensure didymo cells are dead by drying, the item must be completely dry to the touch, inside and out, then left dry for at least another 48 hours before use.

If cleaning or drying is not practical, restrict equipment to a single waterway.

NB: When decontaminating equipment for didymo, it is recommended that you:
- Soak porous materials long enough to ensure cleaning solution has gone right through the item before soaking for the required decontamination time.
- Choose a decontamination solution that will not adversely affect your equipment.
- Follow manufacturer's safety Instructions when using products.
- Dispose of cleaning waste well away from waterways.

The above didymo decontamination measures are sourced from the MAF Biosecurity New Zealand website (www.biosecurity.govt.nz/didymo). Please visit this site for further information or instructions on cleaning methods for specific activities.

To report a suspected find of didymo, please call 0800 80 99 66
